HEADER BUDDY, HEADER COLLECTORS & CONNECTORS

HEADER BUDDY™ Is An Innovative, New Design For Header/Exhaust Assembly That Requires NO GASKET !

- **NO MORE** time & money spent at exhaust centers!
- **NO MORE** crawling under your car to replace gaskets!
- **NO MORE** gasket repairs!

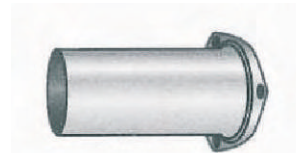

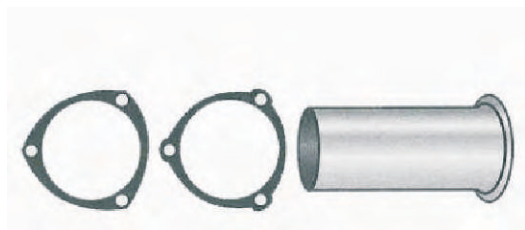

Header Buddy is made of 16 gauge aluminized tubing and has an inlet OD that fits 3" collector boxes, with an outlet of 2.5" OD. flanges are 5/16" thick. Sold in pairs.

Do not over-tighten when installing.

FAQ's About Header Buddy:

- Q.** Do I have to alter my headers? **No.**
- Q.** What does this product do for me? **Allows you to eliminate the collector gasket from the exhaust system.**
- Q.** What do I do with the old gaskets? **Landfill property. Remember, NO GASKETS.**
- Q.** Can I disconnect the headers from the exhaust system after this product is installed? **Yes. The Header Buddy is reusable.**
As a matter of fact, many drag racers use this product because of the ease of disconnecting the exhaust system during races.
